-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

DETAILED ACTION

Response to Amendment

1. Applicant's amendments and accompanying remarks filed 12/13/03 have been entered and carefully considered. Applicant's amendment is not found to patently distinguish the claims over the prior art and Applicant's arguments are not found persuasive of patentability for reasons set forth herein below.

Claim Rejections - 35 USC § 102

2. The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.
3. Claims 21-22, 24-26, 31, 35-36, 38-42, 44-49, 53-54, and 56-60 are rejected under 35 U.S.C. 102(a) as being anticipated by Branham et al (6261674B1), as set forth in the previous action.

Applicant argues that Branham fails to disclose a biodegradable polymer used for all the layers. However, Branham teaches the first layers to be composed of a biodegradable polymer and then teaches that the first layers can be composed of the same materials as the second layers (col. 6, lines 39-45).

Claim Rejections - 35 USC § 103

4. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

5. Claims 23 and 27 are rejected under 35 U.S.C. 103(a) as being unpatentable over Branham et al (6261674B1) in view of Lavon et al 96050985), as set forth in the previous action.

Applicant's traversal of this rejection rests on the arguments discussed above.

6. Claims 37 and 50-52 are rejected under 35 U.S.C. 103(a) as being unpatentable over Branham et al (6261674B1) in view of Zhao et al (6514602B1), as set forth in the previous action.

Applicant argues that Zhao fails to teach a filler and uses different technology. This argument is not germane to the instant invention because Zhao is only relied upon to teach a specific polymer.

7. Claim 43 is rejected under 35 U.S.C. 103(a) as being unpatentable over Branham et al (6261674B1) in view of Trinh et al (5714445), as set forth in the previous action.

Applicant has not argued this rejection.

Conclusion

8. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not

Art Unit: 1771

mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.

9. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Examiner Pratt whose telephone number is 571-232-1480. The examiner can normally be reached on Mon-Friday from 9 to 5.
